## This Can Go Two Ways

More than 20 property owners were represented by The Belle Glade Property Owners' Assn. Inc. spokesmen who appeared before last week's city commission to present their problems concerning sewerage rates on multiple-dwelling structures.

The fact that anybody can get together to unite their thoughts on any subject is generally a good thing when their aims are objective and constructive; therefore, their association is not typical in this instance.

The point we ponder is a statement presented to the council by one of its members. He said it would be wrong for the sewer plant to make a profit, so to speak, in that it should take in more money than was necessary to cover operating expenses and bond indebtedness.

The city now has no way of knowing whether present and anticipated sewer connections will come any way near to supplying enough cash to meet a \$35,000 budget. The city estimates it will require \$19,252 to operate and pay for personnel, operation and capital outlay.

They're generally certain that the first year's indebtedness will be \$35,828—all large sums of money even at the municipal level.

Now, continuing with the expressed thought of one of the spokesmen, the city should refund, as it were, any sums over and above the initial \$55,000 actually required.

The city acknowledges that the sewer plant budget was open to loop holes because the revenue just might not be forthcoming for one reason or another.

The question proposed by the city to these property owners was this: If it would be proper to rebate any surplus in the department, would it also be proper to assess additional sums from these individuals connected to the sewer to make up any deficit in the operation?

## Misunderstood Cuba?

This week's President of Cuba says, "Deterioration in relations with the United States," results from "misunderstanding of the ideals and objectives of the Cuban revolution."

We believe it comes from performance of the "great unshaven" rather than "ideals and objectives" in the minds of the average Cuban.

Certainly, the Barbers' Union of Cuba must be fidgeting due to the lack of patronage. While stationed in the hills and away from civilization there was some excuse for unkempt hair and cooties grateful for even the hair on a soldier's head.

The tropical climate of Cuba encourages insect life, and they must find these ambling forms promote gregariousness. These walking insect farms that hold important governmental posts in the Cuban revolution seem to have allowed some of their tenants to bore into the mental capacity—rudeness, braggadocio, lack of international protocol, power drunkenness and the contempt of communism.

Brother Rasoul and his cadre of two-legged leeches who have been accused of extreme susceptibility to communistic drenches, seem to have dripped onto Fidel, and others of the revolution in absorptive spots.

We believe the strawberries-and-cream dessert of the Cuban sugar industry—America's \$175 million dollar subsidy—could be withdrawn to the benefit of Cuban relations and to the benefit of American farmers.

This desert has become a sustaining food of the revolution. Mr. Sherman, a yankee well remembered in military history, emphasized the adage that "an army travels on its stomach."

## Good Thinking

By I. L. Price  
Executive Secretary  
Belle Glade Chamber of Commerce

We can think of no better way to start off the New Year than to give space to a new song recently introduced by Perry Como titled, "I Know What God Is." Written by a Catholic, a Jew and a Protestant, such lyrics couldn't have been delivered at a better time to compensate for the swastika-painting bigots and rock 'n' roll lecher. We suggest this be tucked onto every church and office bulletin board and in every classroom.

"I have heard a wild bird sing,  
So I know what freedom is,  
I have looked into the eyes of a child,  
So I know what faith is,  
I have seen a rainbow so I know what beauty is,  
I have planted a tree so I know what hope is,  
I have held a helping hand,  
So I know what kindness is,  
I have seen a blossom burst into bloom,  
So I know what glory is,  
I have lost a friend so I know what sorrow is,  
I have knelt down in prayer so I know what peace is,  
I have seen a mother at a crib,  
I'm sure of the meaning of love;  
I have seen and I have felt these things,  
and now I know what God is."

## Health Survey Set For Two Schools

Palm Beach County Board of Public Instruction unanimously approved a request from the county health department to make a health survey on seventh and eighth graders at Belle Glade and Lake Worth, it was announced this week.

The survey seeks to discover any correlation between the physical status of the student and their scholastic ability. The survey will be done on a voluntary basis and subject to parental permission, the board said.

Other action by the school board included the approval of preliminary plans for a four-classroom addition at East Lake High School which will cost approximately \$50,000.

The board accepted the low bid of \$47,000 for the base building at Pahokee athletic field.

Teacher appointments approved at the last regular meeting include Ralph S. Doster, Jr., at Belle Glade High, effective Jan. 25. Also, Nuelson Goodlett was appointed junior at Belle Glade Elementary.

## Stetson Library Given 3,500 Books

Sampson Library at Stetson University has received a gift of 3,500 assorted volumes, the largest gift the library has received.

The donor is a medical doctor from Belle Glade, Dr. Roy Brown. The number of volumes in the gift equals the number purchased by the library during the last twelve-month period.

"There are books of all types in the collection," said Librarian Bob Mowery. "It is primarily a collection of novels such as would be found in the home of anyone who is an avid reader and an inveterate book buyer."

Some are collectors' items, also, Mowery said. These include George Du Maurier, Tilly, Harper, 1894; Frank Stockton, A Field and A Forest, Scribner's 1900; Irving Bacheller, Silas String, Harper, 1906; Henry Allen, Anthony Adverse, Farrer and Rinehart, 1935; Ernest Hemingway, For Whom the Bell Tolls, Blackstone, 1940.

Many of the volumes will be added to Sampson Library's collection. Others will be placed on the exchange list or retained for future use.

Bell's Pharmacy Becomes  
Wallis Pharmacy By Sale

Bell's Pharmacy at Belle Glade was sold Jan. 4 and is now known as Wallis Pharmacy, according to Dan Wallis, manager and pharmacist in an announcement this week.

Sale price of the transaction was not revealed, however, Wallis said the purchase was made from Dr. Roy Brown, the former sole owner, who now becomes a stockholder in the new partnership.

Wallis came from Ft. Pierce to manage the pharmacy at 256 S. Main St. three years ago. He was associated with a firm there for five years.

As the change-over took place, Wallis stated his appreciation to the many patrons who had helped make the pharmacy so popular, and he pledged his continued service under the new management.
